BARBOURVILLE, KENTUCKY, FRIDAY, APRIL 21, 1911

VOL. VIII, No. 10

COL. D. W. CLARK

The Popular Editor of the Barbourville Advocate, Announces for the Office of Commissioner of Agriculture on Republican Ticket.

Our old friend and brother Editor, D. Will Clark, of the Mountain Advocate, last week came out in a card announcing himself a candidate for the Republican nomination of the office of Commissioner of Agriculture, subject to the action of the Republican convention to meet at Louisville July 11th.

It gives us much pleasure to recommend Bro. Clark to the people of the State.—Corbin Times.

We clip the following comment from the Mt. Olive Tribune-Democrat, published in the county where we were reared, the editor having known us from childhood. It says:

"D. W. Clark, of Barbourville, has announced as a candidate for the Republican nomination for State Commissioner of Agriculture. Mr. Clark has many friends in this section of the State, where he is well and favorably known. He would make a most efficient Commissioner as he has always been more or less identified with the interests of the farmers. He was raised on the farm and knows the needs of the farmer."

After New Honors . . .

Past Sachem Col. D. W. Clark has made formal announcement of his candidacy for the Republican nomination for the office of Commissioner of Agriculture. It is claimed that Bro. Clark is fitted by knowledge, training and sympathy with Kentucky agricultural conditions for the office for which he seeks. He has good backing both politically and fraternally, as he has for many great suns been prominent in both the political and the fraternal affairs of the State. He is a prominent Red Man and a member of the council, degree of Pocahontas, of the Great Council of Kentucky, American Red Man.

SUN TO BE HIDDEN

First Eclipse Will Occur April 23 and is to be Visible Here

On two days of this year the sun will be hidden from the view of people in certain sections of the United States. One of the eclipses will occur on April 23, and will be visible to this country with the exception of the northeastern portions, the eclipse extending north as far as a line drawn through the cities of Philadelphia, Milwaukee, Butte, Montana and Portland, Oregon. The eclipse also will be visible to Mexico, Central America, the western portion of the West Indies, the eastern half of Australia, New Zealand and the Pacific Ocean, the path of totality extending from Auckland, Australia across the Pacific Ocean almost to Central America.

An annular eclipse of the sun will occur on October 22, which will be invisible to the United States, but visible to Asia, Phillipine Islands, Australia, the northern part of New Zealand and the Pacific Ocean.

Good Roads Convention

A Good Roads Convention was held Wednesday at Pineville and was attended by County Judge J. T. Stamper, Hon. W. P. Parker, D. W. Clark, W. M. Tye, Capt. B. B. Golden, George Goodin and Charles Davis from this city.

Time and space forbid an account of the meeting this week but will mention it in next issue.

TUBERCULOSIS

Causes Ten Per Cent of Church Deaths

State Association Reports High Death Rate From Consumption

Statistics showing how serious a problem Tuberculosis is to the ordinary church congregation were published today by the Kentucky Association for the Study and Prevention of Tuberculosis in a bulletin on Tuberculosis Day.

From reports received at the National Association, from over 725 churches, with a membership of over 312,000 communicants of twenty denominations, and from 208 cities and towns in twelve states in various parts of the country, out of nearly 7,000 deaths in 1910, over 700 or 10.4 percent were caused by tuberculosis. This means 2.21 deaths for every thousand members of communicants.

While the percentage of deaths from tuberculosis as compared with other diseases is not higher in the churches, according to these figures, than in the country at large, the tuberculosis death rate, as shown by the church returns, is higher per thousand communicants than that for the general population in the Registration Area of the United States, which the Census Bureau gave as 1.67 in 1909.

The "State Association" bulletin says, "does not, however, consider the statistics received from ministers comparable from the point of view of accuracy with those reported by the Bureau of the Census." A sufficient number of returns from a great variety of churches have been received, nevertheless, to indicate that one of the most serious social problems the ordinary church has to consider is that of the destruction of its membership by tuberculosis. The need for education from the pulpit and in the home is apparent. Every minister in the United States is asked to give this subject some attention during the next two weeks.

A Sermon or Lecture Outline on Tuberculosis, was sent by the State Association to over 2,000 ministers in Kentucky and it is believed that practically 250,000 communicants in our state will dismiss the Great White Plague on, or some day the week preceding or following April 30th, which has been designated as National "Tuberculosis Day." All the prominent clergymen and many statesmen have given the movement their official endorsement. Anyone desiring further information about the plague in Kentucky can get it by addressing the Secretary of the Kentucky Association, Eugene Kenner, at 215 E. Walnut St., Louisville, Ky.

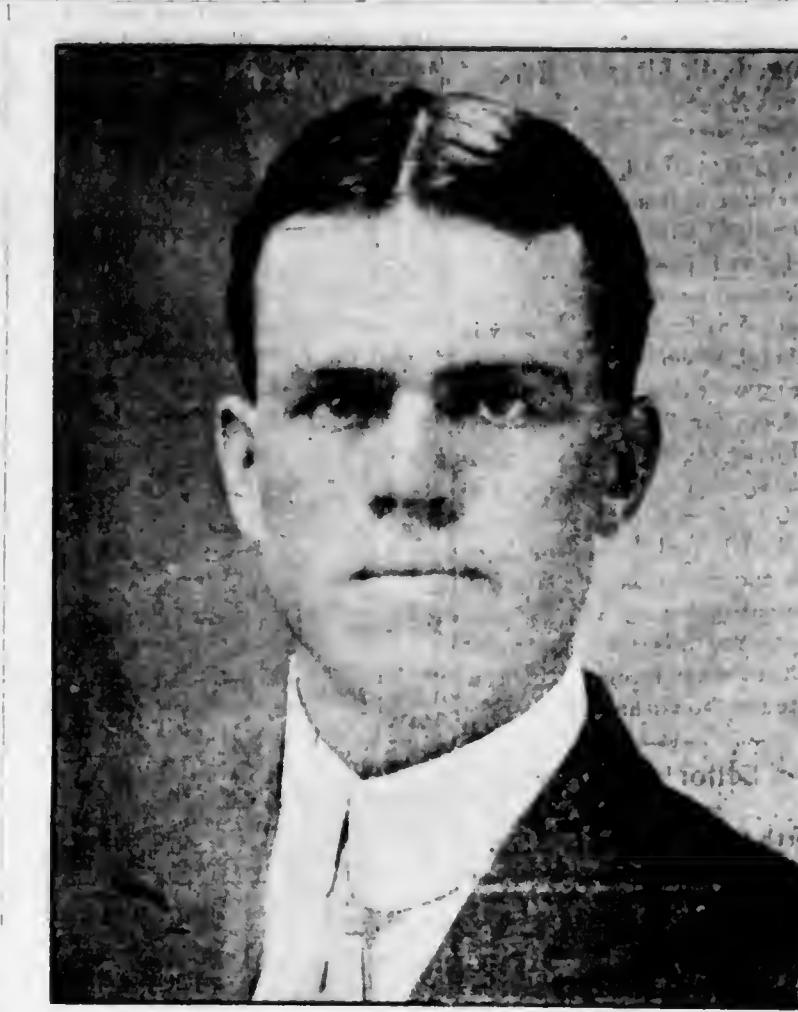

The Land of Room Enough

The above title is the subject of a lecture to be delivered at Union College Chapel on the night of April 23, at 7:30 o'clock, by Dr. Thomas B. Terhune.

In Terhune was at one time pastor of the Presbyterian church of this city and while here made many very warm personal friends who will rejoice at the opportunity of hearing him again.

As a minister and pulpit orator, Mr. Terhune ranks high, as he possesses a gift of eloquence that appeals to the intellect of his hearers, while his deep and earnest method attracts and charms them. His manner is smooth and pleasing and on the platform he has attracted as wide attention almost as in the pulpit.

Do not fail to hear him as he will bring a rare treat to his hearers.

HON. TECUMSEH WADE STRATTON

We present herewith a photograph of Hon. Tecumseh Wade Stratton of Cromwell, Ky., who is a candidate for Great Keeper of Wampum of the Great Council of Kentucky, Improved Order of Red Men. He is an active worker in the Order and has done more for the Order in his section of the State than most anyone in the State. He is a K. of P., an Odd Fellow and a Mason, is a professor of short hand and stenography and an all-round business man. We believe the boys in Southeastern Kentucky will support Mr. Stratton, as he is much talked of by the Past Sachems of this section of the State. There is three cheers for Stratton.

CHAPTER MASON

A. T. Woods for E. T. Franks,

A. T. Woods, United States Pension Agent, last Monday came out in support of E. T. Franks, of Owensboro, for the Republican nomination for Governor. He gives his reasons at length for supporting Mr. Franks, declaring that he has endorsed the principles expressed in the last National and State Republican platforms, that he has always taken a stand on the side of law in night rider troubles, that he favors good roads, the taking of the penitentiary out of politics, a non-partisan banking law and other reforms.

TO CONSULT MAPS

OLD LAND MARK

Before Calling Extra Session Gov. Wilson Will Request Population of State by Districts.

Before taking up the question of an extra session of the legislature to redistrict the State, Gov. Wilson will request Alvin S. Bennett, secretary of the Republican State Committee, to prepare maps showing the State by districts with the population of each, according to the last census. Mr. Bennett has maps showing the population of the districts according to the 1900 census, but the Governor wants this revised and brought up to date.

He said that he had not talked with any of the leaders in either the House or Senate in either party about the possibility of passing a fair districting bill and had not read the recent census report.

The Governor is no nearer knowing now than he was several months ago whether he will call an extra session of the Legislature or not. He probably will decide the question in the next few weeks and will have a talk with Mr. Bennett and some of the Senate and House leaders before taking any action.

Some Class To That U. C. Bunch

The Kentucky Wesleyan University team was given a surprise last Saturday when Union College took both games of a double header with just as much ease as it would be to take candy from a baby. The first game was very loosely played but the outcome was never in doubt from the start. McDonald had them at his mercy at all times. K. W. U.'s first pitcher was very quickly sent to the tall timber, and his substitute proved little better. The score when the game ended was 13 to 1.

The second game was a much better exhibition of ball playing than the first and some good stunts were pulled off. Edwards, a former Union College pitcher, was sent in to do the heavy for Winchester and held the locals down to four runs. Watkins, for Union, was in fine form and kept the hits well scattered. Winchester secured two runs in this game.

The U. C. team left Sunday night for Richmond where they defeated the Eastern Kentucky State Normal 7 to 2.

On Tuesday they again crossed bats with Kentucky Wesleyan, this time in their own territory, and came out the victors by a score of 4 to 1. A second was scheduled with the same team but was called off on account of rain. No doubt Union would have added another victory had the game been played, but three straights from the same team looks mighty good.

Thursday's game with the Blue Grass League team at Paris has not been reported as we go to press. Another game with Paris this afternoon and one with Lexington tomorrow will complete the program in that section of the State.

A crowd of local fans will witness tomorrow's game at Lexington.

Convention Called

The Republicans of Knox County are hereby called to meet in mass convention at the Court house in Barbourville, Ky., on Saturday, April 29th, 1911, at 1:30 o'clock p. m., standard time, for the purpose of selecting 28 delegates to represent the vote of Knox county at the District convention to be held at Paris, Ky., on May 3rd for the purpose of nominating a Republican candidate to be voted for at the November election in 1911.

John A. Gilliam, Chm. Knox Co. Republican Com.

Log Cabin Where Noted Men Began Career Now Being Removed

The little old Log Cabin that has stood for the greater part of a century just to the rear of the Advocate office, and has been used until recently as a shoe cobbler's shop, is now undergoing a change and its owners, Messrs Sevier and Wilson, are turning it around in order to build a concrete sidewalk through from the Public Square to High St. and the building will then face on the new sidewalk.

In the early times Miller and Woodson had their offices in this building and began the practice of law and associated with them was Mr. Hedding.

For a few years Miller practised medicine, but upon being elected as a Justice of the Peace began to read law, and became so engrossed in the profession that gave up medicine and continued to live until he finally became a leading member of the United States Supreme Court.

His law partner, Woodson, obtained some note by being elected to represent Knox and Harlan counties in the constitutional Assembly. He afterward located at St. Joseph, Mo., and entered vigorously into politics and was elected as Governor of the State of his adoption and served with distinction. In the meantime Miller had located in Keokuk, Iowa, having also moved West from here, and upon the election of Abraham Lincoln was appointed to the Supreme Bench.

Healding also located in Keokuk, Iowa, where he acquired a great reputation as a business man and when he died was quite wealthy.

This limble Log Cabin where these men made their start is among the last landmarks of the early days of our city.

The logs of which it is built were cut from the Public Square surrounding the present Court house, but one would scarcely know now that it was a log building as it has been weather-boarded and an additional room added to it which destroys a great deal of the originality of the Cabin. But it will possibly stand within a few feet of its original site for the next half century unless its owners decide to send it to the World's Fair at San Francisco in 1915 as an exhibit.

There are few houses standing in Kentucky that are as old as this one and none that are more historical.

MUSICAL RECITAL

Given Monday Evening at the Institute

The Musical Recital given at the Institute Chapel last Monday evening by Miss Blanche King's class was one of the most interesting and entertaining events of the season and was witnessed by a crowded house. It was indeed wonderful to see the primary students, some not more than 8 or 9 years of age, sit down to the piano and perform their parts with as much composure as one who had years of experience.

The more advanced pupils also come in for a word of praise. Every one did splendidly.

The stage was neatly arranged with Easter Lillies and Carnations and potted plants, while Miss King never looked sweeter in her life than when directing the programme of the evening.

The Institute has indeed a gem in Miss King and if they have not already discovered it they will do so when some other institution secures her services and they come to substitute her place.

The Official Organ of the Republican Party in Knox County.

Hom. E. G. Asher, of Pineville, one of the best known Republicans in this end of the State, is an announced candidate for Representative from the 93rd legislative district composed of the counties of Bell, Harlan, Leslie and Perry counties, and in his platform advocates many changes that would, if adopted, be of untold interest and benefit to the citizenship of Kentucky.

E. G. Asher Enters Race For Representative From Bell-Harlan District.

He strongly urges a re-districting bill and shows the unfairness of the present condition of affairs and urges that the State be re-districted according to present population and distributed as was intended by the Constitution.

He also favors a complete re-adjustment of our tax laws, and opposes the present special license tax that imposes a hardship upon small businesses and allows larger businesses to escape. This, he brands a class legislation and declares that it has checked and impeded the progress and development of our State.

He opposes the law which takes from the jury the right to fix the penalty in manslaughter cases and would, if elected, vote to revise the Statutes in that regard.

He favors the temperance plank adopted by the Republican party in its State platform which declare for County Unit law. He also favors any Good Roads measure that will in any way improve the public highways and give better law.

He favors a law making it a felony for any person to sell or offer their vote, and also depriving the purchaser of the right to hold office either by election or appointment.

He favors making it a felony for any one to have in his possession the registration certificate of another unlawfully and one who would wilfully secure such certificate from illiterate and ignorant voters to satisfy his political desires and deprive them of suffrage, should wear the stripes of a felon in the State penitentiary.

He favors a revision of the present school laws, especially the clause giving to the City School Board the power to adopt supplementary school books, because it works a hardship upon the parents to be compelled to supply new text books and often impedes the progress of the school.

We hope to see him win upon such a strong platform as he has outlined. There is a possibility that he will have no opposition.

A Tactful Deacon.

tern of the virtue that he preaches. The Sun Brothers' Shows are making a strange person, officiating in a country church in the absence of the rector, to his horror saw the gentleman who had handed the plate, long managerial career. There is a when returning it to him slip a half greater collection of wild beasts, crown off and put it into his waist-coat pocket, runs a story in "Seventeen Years of Irish Life." Immediately after the service he told the sexton to request the gentleman to come to him in the vestry room. When he came he said to him:

"Sir, I was never so shocked and pained in my life. I distinctly saw you, sir, abstract a half crown from the plate and put it in your pocket."

"Of course you did," replied the man. "Here it is, I always do so. You see when I get the plate, before I begin to hand it around, I always place half crown on it in order to induce people to give more than they otherwise would, and I afterward remove it as you saw me do."

Greatest Attraction Of The Season.

With the elaborate looking and specially designed posters and lithographs of Sun Brothers' Big Shows, seen on the local billboards and dead walls, announcing their appearance here on Monday, May 1st, there are many to revive the old contention that the tented show harms a city in what it takes away from it.

This paper considers that the loss is more than answered in what the show brings, to say nothing of the show dollars left behind in the nature of lease bills, license fees and other forms of paid claims, the volume of fun and delight bequeathed to the amusement-loving element of citizenship brings us in debt to the showman.

We despise the cynical growling that is provoked by the occasional invasion of folks who earn their living by exercising their talents of making the world happier.

The man who begrudges the patriotism is himself a very poor pat-

tern of the virtue that he preaches. The Sun Brothers' Shows are making

greatest amusement effort of their long managerial career. There is a when returning it to him slip a half greater collection of wild beasts, crown off and put it into his waist-coat pocket, runs a story in "Seventeen Years of Irish Life."

Durand Hands Out More Census Figures.

CITIES SHOW LARGEST GAINS

Towns and Villages Fall to Keep Step in March of Progress, Many Being Almost Entirely Depopulated by Movement Toward Larger Centers of Population—Mayaville Is Only Place of Importance That Slipped a Cog, Having Fewer People Within Her Borders Than in 1900.

Washington, D. C.—(Special)—E. Dana Durand, chief director of the census department, has made public the figures showing the population of every city, town and village in Kentucky.

These figures show that the Blue Grass state has 58 cities, seven of which—Louisville, Lexington, Newport, Paducah, Owensboro, Henderson and Frankfort—have population in excess of 10,000. Eleven cities have population ranging from 5,000 to 10,000. They are, in order of size, as follows: Hopkinsville, Bowling Green, Ashland, Middlesboro, Winchester, Dayton, Bellevue, Maysville, Mayfield, Danville and Richmond. There are 800 towns and 31 villages, making a total of 339 incorporations.

Analysis of the figures shows that Kentucky, like her sister states of the middle west, has grown civilized during the past decade, in other words the tide of migration has been from the rural districts and smaller towns toward the larger centers of population. In many of the villages the population is below the 1900 mark. In the cities of between 5,000 and 10,000 Maysville is the only one that failed to keep step in the march of progress.

The population returns will be used as the basis for changing ward boundaries in every incorporated municipality in Kentucky and may be used by boards of education to change the school districts. These figures also will be used in redistricting the state for congressional and senatorial purposes.
